

PRODUCT PITCH

"Smart Humanitarian Aid for a Displaced World"

Contributors

- Product Design: Adebisi Jethro
- Frontend Dev: David Uwagbale
- Backend Dev: Zoaka Bata Bukar
- AI Integration: Keshinro Mus'ab

The Problem

Over 100 million people globally have been forcibly displaced.

- Refugees face delays in aid, poor communication, and inefficient resource distribution.
- Aid organizations struggle with coordination, accountability, and real-time response.
- Volunteers and donors lack visibility into their impact.

Our Solution — RefugeesAid

An **AI-powered digital platform** that simplifies and accelerates humanitarian response.

- ✓ Refugees request help via AI chat
- ✓ Admins coordinate aid with real-time dashboards
- ✓ Donors track the **impact** of every contribution
- ✓ Volunteers manage field operations in one place

Key Features

An **AI-powered digital platform** that simplifies and accelerates humanitarian response.

-  **WorldView Dashboard:** Real-time analytics on refugee cases, donations, and resource deliveries
-  **Volunteer & Donor Portals:** Task tracking, regional reports, campaign dashboards
-  **AI Assistant:** 24/7 multilingual chatbot for refugee support
-  **Role-Based Access:** Secured, scalable multi-user platform

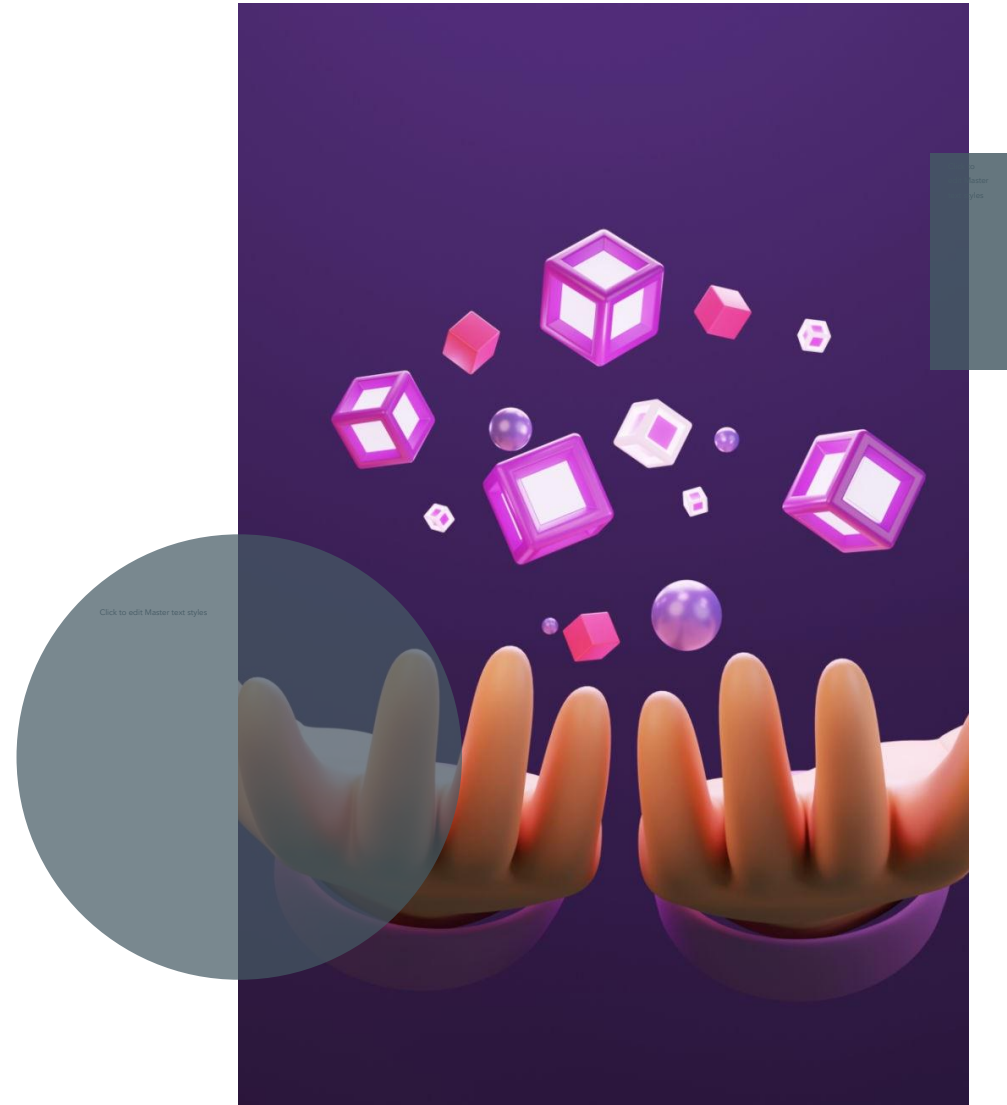

Impact Potential

- 🕒 40% faster case resolution time
- 👤 Scalable support for thousands of refugees
- 💰 Transparent fundraising with real-time impact tracking
- 🌍 Easily deployable across NGOs, camps, and conflict zones

What's Next?

- Add **blockchain** for donation traceability
- Integrate with **logistics providers** for delivery tracking
- Expand AI support to **local dialects**
- Partner with UNHCR, Red Cross & local NGOs

Our Team

- Product Design: Adebisi Jethro

- Backend Dev: Zoaka Bata Bukar
- AI Integration: Keshinro Mus'ab

Call to Action

Let's bring hope, one smart solution at a time.

RefugeeAid is ready to scale. We're looking for:

- ✓ Mentorship
- ✓ Partnerships
- ✓ Pilot opportunities

Let's Make Aid

Smarter

Faster

More Humane

THANK YOU
